

**NEW FOR 2011 DMI HAS BECOME
A STOCKING MASTER W.D. for**

In the last 25 years, Pro Shocks has become the #1 racing shock manufacturer in the world. Their constant testing and R&D ensures their place at the top. We are committed to stocking the shocks you need for success at the track and at the sales counter. If there is a Pro component you don't see in the catalog – ask and you shall receive. DMI offers very competitive pricing on all Pro products. DMI and Pro Shocks – the symbol for winning.

In addition to stocking a large inventory of shocks DMI will also be stocking a large inventory of Pro springs, components and accessories. DMI is also a factory-trained Pro Shock revalver and rebuilder. Whether fixing a crashed shock or trying a new valving, let DMI be your Pro Shock service center.

***Complete Pro Shocks catalogs
are available on request.**

New for 2011 is the **PRO GAS ALUMINUM SHOCKS**. The monotube shock is available in all the standard and custom valving as the twin tube ProShocks you've worked with for years. Pro R&D has created a shock that transitions better than any monotube on the market. Simply put - Pro Gas has better traction than the competition. The shocks are available in smooth or threaded body and in non or single adjustable.

Rebound & Compression adjustment range is available in soft (s), medium (m) or firm (f).
